One-time funding was added in FY24 for the Prescription Drug Monitoring Program (PDMP) that will be operational this fiscal year. This item requests ongoing funding needed to cover the cost of the contract awarded to Bamboo Health in January 2023. The process for acquiring historic dispensation data from St. Louis County continues with an anticipated agreement date to be realized in December 2023.Ongoing funding of \$525,000 was budgeted in FY24 for covering the ongoing cost of the contract. The base renewal contract cost is \$1,145,595 plus \$158.08 per hour for any technical support needed.

Electronic Monitoring Pilot
Section 5.010

Page 76

For a statewide electronic monitoring pilot program. The program’s objective is to monitor individuals subject to pre-conviction or post-conviction through a check-in system that the supervising agency or circuit can access through a secure web-based platform. The program should also establish exclusion zones and compliance levels through the platform and generate reports with relevant information for individuals monitored through an industry standard end to end encryption and redundant back-up data.

This item requests staff to support the regular upgrades of the MOVERS statewide accounting/HR/ budget system. Due to MOVERS receiving quarterly functionality updates, regression testing of the system will need to be completed before each upgrade to ensure continued functionality. Three new staff members are needed for when the first module goes live in July 2024 to maintain the security and workflows of the system. MOVERS has the potential to increase the efficiency of administrative functions; however, there is a significant administrative workload to maintain user access, efficient workflows, and system settings.

Division of Budget and Planning
Operating
Section 5.020

Page 103

The Division of Budget and Planning provides technical assistance to agencies in preparing budgets, including the review and preparation of the annual Executive Budget and administration of the budget control system. The division conducts ongoing analyses of agency programs including proposed state and federal legislation; provides assistance and coordination in matters relating to executive branch agencies; and administers the state and local review system for federal funding. The division also provides technical and management assistance to the Governor's office and state departments on matters of administration and procedures.

Without critical state/national economic data, and information regarding budgeting best practices, Budget and Planning cannot successfully fulfill its role in helping to build and implement a constitutionally balanced budget.A variety of private vendors and national associations provide these materials. Unfortunately, the cost of such information has risen significantly in the last ten years. From FY13 to FY23, the cost to access such budget and economic data rose 42%.

Division of Budget and Planning
Census Preparation and Support
Section 5.020

Page 116

Section 37.130 RSMo provides that the demographic unit in the Office of Administration “shall provide requested assistance in all reapportionment matter”. The United States census occurs April 1, 2020. Missouri needs to prepare census, geographic, ad election databases for reapportionment efforts following the census. This core provides temporary staff and resources to support reapportionment activities including software and equipment purchases, training, data compilations, setting up a redistricting office, creating and maintaining a website for public use, coordinating public meetings and travel, filing draft and final plans with the Secretary of State, making maps of new districts available to elected officials, and providing data and support in the event of legal challenges.

OFFICE OF ADMINISTRATION

IT Inter-Department Consolidated Core
Section 5.025

Page 129

Per Executive Order 05-07, the management of State Information Technology resources was consolidated under the Office of Administration in FY06. Consolidation places IT resources under the direct control of the State’s Chief Information Officer, who will assess the IT staffing and equipment requirements, which should result in a more coordinated use of IT resources. This section contains the operating funds for each of the division’s sections including Infrastructure, Operations, and Administration. In addition, this section includes funding for information technology services provided to the 14 departments included in the consolidation.

This request is for ongoing funding related to the Digital Government Transformation (DGT) project funded by ARPA. The State does not currently have full failover capability of all applications in case of a disaster or equipment malfunction. If disaster strikes or equipment malfunctions, the State risks losing its stored data and may not be able to get applications up and running in an appropriate time period. The current primary data center is located in a flood plain and has been at risk during previous flooding.The site remains at risk unless moved to an alternative location. If the data center is impacted it could have catastrophic consequences on the data stored at that site and the State does not have the existing ability to do a full failover to the secondary site.

IT Asset Management (ITAM) is a tool to maximize the value of IT equipment by combining financial, contractual, and inventory data to track the status of IT assets across their lifecycle. IT assets can typically be characterized as either hardware, the physical computing equipment that the organization owns, and software, or program assets that the organization either owns or licenses. ITSD manages all of the data related to these assets in disparate systems with large manual effort to maintain consistent data across systems. A comprehensive asset tracking system is necessary to improve decision making when it comes to IT investments.														

Citizen Portal Expansion - 1300023

This requested funding will expand and enhance services already implemented within Digital Government Transformation. ITSD is partnering with agencies to innovate user experiences and optimize workflows through journey modernization using a unified online portal and leveraging strategic enterprise tools within the IT infrastructure. There is significant work to continue modernizing both the citizen portal and business portal. This modernization consists of centralizing the citizen and business web pages in order to minimize confusion to the user, minimize the time spent in order to find the required agency service, and vastly improve the communications between agencies and citizens or businesses.

Over the past two decades, the state has experienced significant growth and dependency on its geospatial platform. Investments have been made application by application, rather than adopting a centralized resource that supports a broader use of GIS. This expansion will include: an expanded license agreement for GIS software, coupled strategic planning with the agencies on how to use the new GeoPlatform portal, and offer data and tools to perform basic GIS tasks at the user level. Other states have adopted a centralized approach, with a "build once, use many" philosophy in regards to their GIS infrastructure. Maintaining a central GIS portal for internal use reduces error and duplication of data collection and storage.

Citizen Journey Modernization - 1300025

This request is for ongoing funding related to the Digital Government Transformation project funded by ARPA. The processes leveraged by agencies to provide services to citizens and businesses are collectively referred to as "journeys". ITSD will continue partnering with agencies to modernize high priority, high impact, or high value journeys. ITSD will partner with agencies to prioritize the next two citizen and two business journeys with an average cost of \$2,000,000 per journey. The cost of modernizing each journey will decrease as ITSD gains the necessary skilled internal resources in contrast to the cost of third party implementers.

The Department of Elementary and Secondary Education (DESE) is responsible for statewide distribution of over \$5 billion in state funds to Missouri's 560 public school districts and charter schools. The DESE Foundation Formula calculation system was written in 2006 and is used to calculate the payment of these funds. The DESE Foundation Formula calculation system currently lacks an intuitive design and requires heavy involvement from OA-ITSD to make basic routine edits, as well as extensive manual data verification. It is also very expensive to make modifications to this old system as changes are required or new legislation is passed each year.

Microsoft 365 (M365) is the new productivity and collaboration suite being installed for the consolidated IT agencies. Microsoft 365 is a subscription based service intended to improve the integration and security between Microsoft products. It comes as a comprehensive package that offers Office 365, Windows 10 Enterprise, as well as Enterprise Mobility and Security. Having a platform like Microsoft 365 in place is critical to state business continuity. The consolidated agencies have been using stand-alone Microsoft Office 2016 licenses. The 2016 licenses will be at “end of life” in 2025. All Microsoft Office upgrades will require a subscription based license going forward that must be paid for on an annual basis.

Microsoft 365 (M365) is the new productivity and collaboration suite being installed for the consolidated IT agencies. Microsoft 365 is a subscription based service intended to improve the integration and security between Microsoft products. It comes as a comprehensive package that offers Office 365, Windows 10 Enterprise, as well as Enterprise Mobility and Security. Having a platform like Microsoft 365 in place is critical to state business continuity. The consolidated agencies have been using stand-alone Microsoft Office 2016 licenses. The 2016 licenses will be at "end of life" in 2025. All Microsoft Office upgrades will require a subscription based license going forward that must be paid for on an annual basis.

USAHERDS (Animal Health Emergency Reporting Diagnostics) is a computerized data program available to state departments of agriculture, which helps with the management of dangerous diseases among animals. The goal is to include functionality from USAHERDS and USALIMS into the re-modernized AgEnterprise. The Animal Health Division currently uses the USAHerds and USALIMS applications in their day-to-day work. These applications were developed and deployed in the mid to late 2000s, it's build on an older .Net framework and USAHERDS has hardened from known security issues. The re-modernization will is to bring all the technology to current best practices to ensure their applications have strong security.

This decision item requests a general revenue pickup of the department's shared building telecom costs, thereby freeing up existing ITSD-DNR other funds authority for other core needs such as IT hardware and software, hardware maintenance, and application development. Approximately three-quarters of DNR's IT budget is funded by dedicated/other funds, some of which are experiencing solvency concerns. A general revenue pickup will allow baseline IT services to be funded equitably across the department, improve functionality, and ensure accessibility.

This funding is needed to change the Project Tomorrow funding source for the Office of Administration's Information Technology Services Division from the Economic Development Advancement Fund (EDAF) to General Revenue. The original FY2024 Project Tomorrow NDI requested General Revenue; however, the approved funding was from EDAF. The Department of Economic Development (DED) has determined EDAF can no longer support the number of assigned appropriations; therefore, OA-ITSD is requesting this appropriation be funded by GR in order to ensure the project can be completed. Project Tomorrow will provide better efficacies by providing one system to track and consolidate DED's various grant and tax credit programs.

The Department of Labor and Industrial Relations (DOLIR) has applied for and is expecting to receive 3 American Rescue Plan Act (ARPA) grant funds to assist with fraud detection and prevention, identify verification, overpayment recovery activities, and IT system modernization for its Unemployment Insurance Program. These activities will require the assistance of Office of Administration, Information Services Technology Division (ITSD) and their contractors. Some of these grants were offered via USDOL guidance in Unemployment Insurance Program Letter (UIPL) number 11-23.

The Department of Labor and Industrial Relations (DOLIR) is seeking to build a new Prevailing Wage and Annual Wage Order application that will support the data and processes used by the Wage & Hour Program with the latest technology and security requirements. At a high level, this entails voluntary Contractor Wage Surveys for public works projects across specific job classifications for each county in Missouri. Contractors may submit the wage surveys using the Division’s existing online portal or they may submit paper. The current solution requires significant manual data entry and manipulation, reducing trained analysts to the role of data entry clerks for several weeks just to make sure all survey data has been input.

Missouri Department of Labor & Industrial Relations (DOLIR) and its divisions have multiple disparate means for stakeholders (internal and external) to report issues, file cases, and provide tips and complaints for further investigation. Existing methods for reporting/filing these types of work streams with the department/divisions, interface with multiple different applications with varying degrees of case management and workflow functionality. DOLIR desires a highly configurable and extensible solution that can support public self-service and also allow for use and input from internal staff and stakeholders.

Missouri Veterans Commission (MVC) runs seven skilled Veterans Homes which are required under 38 CFR 51.200(f) to “Maintain all essential mechanical, electrical, and patient care equipment in safe operating condition.” While ensuring “each resident receives adequate supervision and assistance devices to prevent accidents” under 38 CFR 51.120(i)(2). The current anti-wander systems were installed in April of 2015 making this system outdated and in need of an upgrade to the existing solution. Replacement of client hardware devices are no longer available to purchase in order to fix/replace broken components. This is a Commercial off the Shelf (COTS) solution which is necessary to keep residents safe.

The Division of Fire Safety (DFS) is an extremely diverse division with six units and four Governor appointed boards and/or commissions that support twelve separate programs. Over the last few years, the Division has made improvements to internal processes through the use of various ESRI products and solutions that have saved time and money. DFS is charged with the oversight of twelve different statutorily mandated programs. With the existing use of Geospatial Information System (GIS) tools, as well as now having a GIS Professional on staff with in ITSD, it has been determined that a workflow solution can be built in-house at a fraction of the cost of other solutions. This proposed solution will be an expansion of the current workflow.

Missouri Veteran's Commission (MVC) has relied on paper communications since the beginning of the first Veteran home in 1886. Paper medical records were then converted to electronic records in the early 2000s. With the electronic conversion MVC still does not have inter-operability which makes sending, receiving and tracking medical information difficult. MVC would like to connect with a Federal Health Information Exchange (HIE) to access VA and Department of Defense (DoD) records as well as send and receive health information.

Missouri Veterans Commission (MVC) runs seven skilled Veterans Homes which are required under 38 CFR 51.200(f) to “have and maintain a resident call system. The nurse’s station must be equipped to receive resident calls through a communication system from resident rooms and toilet and bathing facilities.” MVC’s current nurse call systems are approaching or have surpassed their full life cycle and need replaced. Some system parts are no longer available to purchase in order to fix/replace broken components. This is leading to several cases of documented malfunctioning.

The Missouri Department of Corrections (MODOC) would like to improve institutional, staff and offender safety by implementing an offender tracking system that identifies an offender's location within an institution in order to reduce manual processes with conducting offender head counts and documenting offender activities and to improve staff reaction time for medical emergencies. In addition, the system will help us identify a staff member's location in order to improve staff reaction time when a staff member is under duress.

-------	-----	------	--------------	------	--------------	------	-----	------	--------------	------	-----	------	-----	------

The Missouri Department of Corrections (MODOC) currently manages an offender population in excess of 113,000 annually by utilizing multiple outdated applications. MODOC has over 10,000 staff who are not able to easily access or use a complete and comprehensive offender record, which creates inefficiencies in the workplace and increases the time to respond to offender/stakeholder needs. MODOC requires a new offender management system (OMS) that can provide a single comprehensive system in order to improve all processes related to offender management.

Having a platform like Microsoft 365 in place is critical to state business continuity. The consolidated agencies have been using stand-alone Microsoft Office 2016 licenses. The 2016 licenses will be at “end of life” in 2025. All Microsoft Office upgrades will require a subscription based license going forward that must be paid for on an annual basis.

Additional funding is needed to comply with the Missouri as a Model Employer initiative (Section 37.980) and Missouri Employment First Act (Section 209.700) (TAFP SB 106). The Office of Administration, Division of Personnel currently offers support for Missouri as a Model Employer initiative. Collecting survey data and compiling this report will require staff time. This will also require enhancements the State's centralized application platform MO Careers to update the platform to allow for additional data collection needed for this report. Additionally, the Division assumes that to comply with the requirements listed within the Missouri Employment First Act additional training, new recruitment efforts, and educational information will need to be developed to ensure that the requirements surrounding integrated employment are implemented successfully statewide.

This funding will provide additional general revenue appropriation authority to various state departments paying cash sums to participants in the employee referral program. In FY24, federal and other funds were appropriated for the employee referral program. In the FY25 Gov Rec, all federal and other fund appropriation have been core reduced and replaced with general revenue appropriation authority in the equivalent amount. Additional general revenue appropriation authority has also been added in this NDI to allow Department of Corrections to participate in the employee referral program.

OFFICE OF ADMINISTRATION

Division of Purchasing and Materials Management
Operating
Section 5.070

Page 498

The Division of Purchasing and Materials Management is responsible for the procurement of all state supplies, services and equipment except those exempt by law. It supervises the distribution and transfer of the state surplus property program as provided by the federal law and regulations. It operates cooperative procurement programs for political subdivisions of the state.

Asset Management
Section 5.085

Page 520

This item includes the core formerly known as Office Building Operations. The merger of Facilities Management and Design and Construction (per Executive Order 05-08) created new mission of asset management focusing on identifying and reducing deferred maintenance, bringing new technology to bear to manage assets, and using the full range of procurement tools to efficiently and effectively improve the condition of the State’s real estate portfolio. Services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan, and Energy Management.

In order to utilize the capabilities of the new MOVERS system, OA-FMDC needs to change current procedure related to payments for leased facilities. At this time, all expenditures are made from HB 13 Section 13.005. New non-count authority is needed in HB5 to allow the expenditures to be consolidated into a single fund prior to making payments. This is the same process used for all state owned and institutional locations. This will create efficiencies for Accounting staff both when making payments and completing reporting, and is a necessary change in order to be compatable with the new MOVERS system.

The goal of the Safety Program within the Office of Administration's Facilities Management, Design, and Construction Division (OA-FMDC) is to promote a workplace health and safety culture related to safety including training; assistance with compliance regulations, and anticipating, recognizing, evaluating and controlling safety and or health hazards associated with employee behaviors. This is crucial to providing a safe and healthy workplace environment.

The goal of the Security Program within the Office of Administration's Facilities Management, Design, and Construction Division (FMDC) is to identify, control, and mitigate all current and potential security risks for leased and State owned office buildings. The security program will establish best practice across the organization and create standards designed to protect State employees, customers, and visitors. Providing security in State Owned and Leased facilities across the state is important for all state agency employees, customers, and visitors. The program will be responsible to review new operational practices statewide with the goal of maintaining the security and safety for all state employees and building occupants.

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law. In the FY2023 budget, one of the ARPA projects included in House Bill 3020, Section 135 & Section 610 was for the design and construction of a multi-agency laboratory campus. The construction on the new multi-agency labratory campus has begun. FMDC is in need of a Specialized Trades Manager to oversee the current Health Lab and monitor the new lab construction as it moves to completion. The position will manage FMDC staff at both buildings.

Construction of a 200 bed mental health hospital in Kansas City was approved In the fiscal year (FY) 2024 Department of Mental Health budget. The budget for this project is \$300 million and FMDC anticipates the project starting in FY 2024. Given the timing and size of this project combined with the large number of new ARPA projects and other new state capital improvement (CI) projects that FMDC is managing, FMDC needs additional staff.														

DYS Treatment Center Utilities - 1300044														
EXPENSE & EQUIPMENT	0	0.00	0	0.00	54,740	0.00	54,740	0.00	54,740	0.00	54,740	0.00	54,740	0.00

Due to additional DSS-DYS staff occupying a new Day Treatment Center in Hillsboro, FMDC anticipates increased utility costs as a result. FMDC requires additional noncount appropriation authority in order to pay these utility expenses in HB 5. FMDC collects the actual funds for these utility expenses from DSS in HB 13.

In the FY 2023 HB 20 budget bill, the Office of Administration (OA) was approved funding for a new statewide warehouse in Cole County. A location has been chosen and OA is ready to close on a warehouse located at 4720 Scruggs Station Road. The State currently leases this location and uses it for conditioned and unconditioned space. This warehouse will be part of the State Consolidated Warehouse Complex.														

Farigrounds Road Warehouse - 1300055

Facilities Management, Design and Construction (FMDC) is acquiring property located at 1535 Fairgrounds Road in Cole County and it is a 100,000 square foot warehouse. Closing on the property is anticipated in November or December 2024 (Fiscal Year 2025). The funding requested is based on estimated annual costs for fuel and utilities in addition to warehouse related expense and equipment (EE). This warehouse will be part of the State Consolidated Warehouse Complex.

OFFICE OF ADMINISTRATION

Division of Facilities Management
Facilities Management Services
Section 5.095

Page 585

This section represents revolving fund authority that allows the Division of Facilities Management, Design and Construction to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications and tenant services that support agency programs. The division then bills agencies for such costs via the interagency billing process.

OFFICE OF ADMINISTRATION

Division of General Services
Operating
Section 5.100

Page 590

The Division of General Services provides the Office of Administration and all state agencies with a variety of central government functions. State Printing offers reproduction services including design, printing, finishing, and quick copy services. Mail Services advises agencies on mailing practices, provides mailing services to the Office of Administration and conducts interagency delivery of mail within the Jefferson City area. Risk Management administers the Legal Expense Fund and the workers’ compensation program for state employees, purchases insurance when appropriate, and monitors policies and claims. This section also coordinates the Statewide Safety Steering Committee and advises state agencies on risk management issues. Vehicle Maintenance operates a centralized maintenance facility to provide mechanical repairs and body shop services for state vehicles based in the Mid-Missouri area. Fleet Management establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system and serves as a resource for fleet management issues.

Legal Base: Section 34.170 (State Printing), 37.120 (Mail Services) 105.711, 105.810, Chapter 287, 537.600 (Risk Management), 37.450 (Fleet Management) RSMo

OFFICE OF ADMINISTRATION

Surplus Property Recycling Proceeds and Transfer
Section 5.120 & 5.125

Page 666

This appropriation facilitates the transfer of excess funds from the recycling program to the Department of Social Services (DSS) to be used by DSS for the heating assistance program. Proceeds from the sale of recycled materials may be used to offset costs of the recycling program, and any moneys in excess of costs incurred are transferred to DSS.
Legal Base: Section 34.032.5 RSMo

Section 37.719, RSMo, gives the Office of Child Advocate the authority to conduct County/Circuit Reviews when there are three or more complaints for the past year. These reviews are extremely thorough and time consuming but examine issues within a particular county/circuit and how the Child Welfare System as a whole is functioning. This request funds a Circuit Review Coordinator, whom would solely focus on County/Circuit Reviews. Consequently, this would provide current staff more time to focus solely on completing the case reviews for the daily complaints recieved by the office.

OFFICE OF ADMINISTRATION

Children's Trust Fund
Section 5.170

Page 737

The Children’s Trust Fund awards community based grants and conducts public education campaigns to prevent child abuse in Missouri. Funded grants to local governmental agencies, hospitals, schools, Not-for-Profit and faith-based organizations support such projects as mentoring for teen parents, grandparent support projects, fatherhood initiatives, home visitation, parent education and parental nurturing. Projects that result in positive outcomes for families are promoted to other communities for replication.

Legal Base: Sections 210.170 – 210.173 RSMo
Funding Source: Children’s Trust Fund
FY 2024 Withholding: \$0
Budget Unit: 31315C

CORE ADJUSTMENTS:

DEPARTMENT:

Core reduction: (\$63,073) FED PS and (1.00) FTE reduction of a grants specialist position. Corresponding decision item requesting this position be paid for using Children’s Trust Fund dedicated fund.

For the last two years, CTF has used ARPA funds to pay the salary of their public education coordinator. Prior to this, CTF reallocated an FTE dedicated to public education to grants administration because their budget has grown considerably in the last six years. Funding for staffing to administer and monitor funds is necessary for CTF to achieve their core mission of preventing child abuse and neglect. The ARPA funds allowed a public education coordinator to be hired so CTF's efforts to educate Missourians about how to prevent child abuse and neglect could be continued. CTF would like to continue this work when ARPA funds are expended by picking up this FTE using CTF's dedicated fund.

Edward Jones Dome
Section 5.230

Page 888

This core request is to fund the State's sponsor payment to the Edward Jones Dome in St. Louis. Sections 67.650 - 67.658, RSMo allow for the establishment of a "Regional Convention and Sports Complex Authority." Pursuant to the issuance of the Convention and Sports Facility Project Bonds Series A 1991, the State of Missouri, as sponsor, is required to contribute \$10,000,000 annually to the Regional Convention and Sports Complex Authority debt service and an additional \$2,000,000 for preservation payments. Debt service payments began in Fiscal Year 1992 and will conclude in Fiscal Year 2022, while preservation payments will conclude in 2024. The amount of outstanding State sponsored Convention and Sports Facility Project Bonds as of 7/1/21 is \$9,520,000.

In March 2021, the federal government passed the American Rescue Plan Act (ARPA) of 2021 in response to the COVID-19 pandemic. One-time authority was added in FY22 in order to allow the state to pass federal dollars to the local municipal districts. The local municipal districts had to claim the funds and any remaining funds are to be returned to the federal government. This appropriation is necessary to return the funds upon the request of the federal government.

OFFICE OF ADMINISTRATION

Budget Reserve (Cash Flow) Loan Transfer
Section 5.260

Page 929

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. This appropriation also allows for transfers from various other funds into general revenue or any other state funds for short-term loans. Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May sixteenth of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15 of any fiscal year. Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15 to June 30 in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30 of the fiscal year in which the transfer was made.

Fund Corrections
Section 5.280

Page 949

This appropriated transfer mechanism allows the Division of Accounting to correct prior fiscal year revenue transactions that were erroneously deposited into the incorrect fund. After a fiscal year has ended, revenue "correction" documents cannot be processed. This appropriated transfer is requested specifically to allow the transfer from the fund that erroneously received the deposit in a prior fiscal year to the correct fund in the current fiscal year.

Central Services Cost Allocation
Section 5.285

Page 954

An accepted accounting practice, allocations recover costs for services provided to other entities. For instance, the federal government allows the State of Missouri to recover overhead costs for federal programs through a Statewide Cost Allocation Plan (SWCAP). Using standard accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of providing services to various state funds including those provided by the Office of Administration, the Department of Revenue, the Governor's Office, the Lieutenant Governor's Office, the Secretary of State's Office, the State Auditor's Office, the Attorney General's Office, the General Assembly, and the Capitol Police. To determine a fund's participation eligibility, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other appropriate considerations.

Refund
Flood Control and National Forest Reserve
Section 5.295 & 5.300

Page 979 and 984

Flood Control Program: The Department of Defense/US Army Corps of Engineers disburses 75% of funds received from lands acquired for Flood Control, Navigation, and Allied Purposes to compensate local taxing units for the loss of taxes from federally acquired lands. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

National Forest Reserve Program: This program distributes funding to counties in which National Forests are located. Revenue is received by the federal government for mineral leases, rentals, concessions, and timber from National Forest lands. A quarter of the revenue is returned to the states. The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to a schedule provided by the U.S. Departments of Agriculture and Interior. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

Legal Base: Federal Flood Control Act 33 USC 701c3; Sections 12.080, 12.090, 12.100 RSMo, CFDA #12.112 Schools and Roads – Grants to States: secure Rural Schools and Community Self Determination Act of 2000, Division C, Section 601(a), 16. U.S.C. 7101-7153’ 16 U.S.C. 500; CFDA #10.665; National Forest Acquired Lands: Minerals, Lands and Mining, 30 U.S.C. 191(a), 355(b); Conservation, 16 U.S.C. 499-500; CFDA #15.438

OFFICE OF ADMINISTRATION

Prosecutions/Capital Cases to Counties
Section 5.305

Page 992

Pursuant to Section 50.850, RSMo, the Office of Administration may reimburse counties, out of funds appropriated by the general assembly, for expenses related to the prosecution of crimes occurring within institutions under the supervision and management of the Department of Corrections. Reimbursements are not to exceed 50% of expenses, and the amount of reimbursement may be based on the number of cases referred, filed, or tried.

Pursuant to Section 50.853, RSMo, the Office of Administration may reimburse counties of the third and fourth class, out of funds appropriated by the general assembly, for expenses related to the trial of capital cases. The reimbursements are not to exceed 50% of actual expenses, and are "limited to counties which were, at the time of the trial, in a negative financial situation."

The reimbursement is \$250 per case.

Aid to Regional Planning Commissions
Section 5.310

Page 999

Funds appropriated for grants to qualified Regional Planning Commissions are distributed in accordance with statutes. Section 251.034, RSMo states that "Payments made under Sections 251.032 to 251.038 to the various regional planning commissions shall be distributed on a matching basis of one-half state funds for one-half local funds. No local unit shall receive any payment without providing the matching funds required. The state funds so allocated shall not exceed the sum of sixty-five thousand dollars each for the East-West Gateway Coordinating Council and the Mid-America Regional Council. The remaining allocated state funds shall not exceed the sum of twenty-five thousand dollars for each of the following regional planning commissions..." (South Central Ozark, Ozark Foothills, Green Hills, Pioneer Trails, Bootheel, Harry S Truman, Mark Twain, Mo-Kan, Southeast Missouri, Boonslick, Northwest Missouri, Mid-Missouri, Kaysinger Basin, Lake of the Ozarks, Meramec, Northeast Missouri, and Southwest Missouri).
